

**TRUCK BUS RADIAL** 

# TIRE PROGRAM

FOR COMDATA CLIENTS

#### I. PURPOSE

Facilitate the retail sale and delivery of eligible Bridgestone products to Comdata clients.

#### II. EFFECTIVE DATE

Updated June 2023

#### III. ELIGIBLE PRODUCTS

See accompanying net price list

#### IV. PARTICIPANTS

Dealers: All authorized & participating Bridgestone commercial dealers. Customers: All verifiable Comdata clients.

#### V. BRIDGESTONE DELIVERY / SERVICE PROCEDURE

Comdata client contacts Bridgestone Commercial Dealer to:

- 1. Confirm participation in the program.
- 2. Determine product availability / inventory.
- 3. Schedule appointment for replacement service.

#### Dealer Agrees to Provide:

- 1. Product at the price listed in the current net price sheet.
- 2. Any agreed upon services between dealer and Comdata client (dealer discretion).

#### At Time of Service Comdata client Provides:

- 1. Proof of program eligibility / identification Comdata Fleet Account Number (AA123).
- 2. Method of payment (cash, credit card, etc.).

At time of service Comdata client MUST pay for all products and services at the time of delivery. Comdata client transaction cannot be processed as National Fleet transactions.

Bridgestone reserves the right to modify or discontinue this program at any time.

#### **NET PRICE BOOK - CONFIDENTIAL**

Pricing for select Bridgestone and Firestone products to Comdata clients.

• = Discontinued Product

## DRIVE ON THE MOST TRUSTED BRANDS

We know that the challenges commercial customers face vary widely with no two businesses having the exact same tire needs. That's why we offer a robust portfolio of tires and retreads that spans across industries, applications and product tiers. Every product we manufacture is engineered for superior performance in the role it was developed for.

## BRIDGESTONE

Best-in-class performance, engineered with the latest advancements in compound technology and tread innovation. Bridgestone tires are developed with leading fleets in mind and deliver excellent performance in the moments where it matters most.

## Firestone

Built with the dependability and durability you need to get the job done right on time, no matter what. With a dedication to providing confident quality over the long haul, Firestone tires are built to work as hard as you do.

## bandag

The most popular tire brand on the road, new or retread, Bandag is continually setting the bar higher for retread reliability, sustainability & fleet savings. Plus, when paired with Bridgestone &Firestone's industry-leading casings, Bandag retreads deliver performance equal to competitive new products.

#### LET US DO THE HEAVY LIFTING

We know tires and how best to manage them. Our experts can recommend and provide the best product and service options for your fleet: it's what they are trained to do. So whether suggesting a tire specifically for your unique fleet application or delivering custom service programs, our goal is the same - help you maximize performance and return on investment so you can focus on your core business.

#### DATA YOU CAN USE

Tires are just one piece of a comprehensive tire program. Bridgestone continues to innovate to provide the data you need to make the right decisions about your fleet. Tools such as Toolbox and BASys uncover trend data to help steer you to the best products and processes for your unique fleet needs. Doing business with Bridgestone opens the door to an ecosystem of fleet management solutions that connect your tires and tire performance data with fleet management platforms and predictive maintenance tools.

#### WE'RE ALWAYS THERE IN AN EMERGENCY

Emergency Roadside Service isn't a 9-5 business. Whenever you need to call, we'll be available when your fleet needs us. With more than 2,500 authorized dealers and truck stops, you're backed by one of the best and broadest networks in North America.

#### Call: 1-800-560-0099

Online Request Form: BridgestoneCallCenter.Service-Request.Reach24.net/

## HOW TO LOWER YOUR FLEET COSTS WITH RETREAD TIRES

Choosing retreads is about protecting your bottom line while understanding the bigger picture. There are cost savings for you, economic benefits for the whole industry and energy savings for the whole planet.

#### **COST-SAVINGS**

It's simple math, really. Retreads cost less than comparable new tires, saving fleets big money on their third highest expense item after labor and fuel.

#### WEAR LIKE NEW TIRES

Advanced compounding and tread designs enable retreads to deliver wear-out mileage comparable to - and in some cases better than - new tires. In fact, a recent test in a waste fleet, one of trucking's toughest applications resulted in Bandag's BRM3 retread handily outwearing premium new tires: the Goodyear Endurance WHA and Michelin XZUS2<sup>2</sup>.

#### FUEL EFFICIENCY

Did you know that retreads are some of the most fuel-efficient tires available on the market today? In fact, out of 362 new and retreaded tires evaluated for rolling resistance, Bandag's FuelTech retreads were among the top 10% in rolling resistance of all tires tested<sup>3</sup>.

#### WARRANTIES INCLUDE RETREADS

Quality new tires are engineered to be retreaded, and, in fact, most warranty their casings for multiple retreads for multiple years. Coupled with Bandag's Limited Lifetime Warranty\* on all retreads, you can be confident that your investment in a casing will pay dividends each time it delivers another tire life through retreading.

FOR MORE INFORMATION, VISIT BANDAG.COM

#### RELIABILITY

Contrary to commonly held beliefs, studies have shown that retread tires offer reliability comparable to new tires. This is confirmed by several studies conducted over the last two decades, which all come to the same conclusion as the National Highway Traffic Safety Administration (NHTSA):

...retreaded tires are not inherently more prone to failure than new tires."

-John Woodrooffe, Director, Transportation Vehicle Safety Analytics at University of Michigan.
